The Charter Still in the Hands of the Slow Coaches.

VAGARIES OF THE NEW YORK SENATORS.

A New Bill for an Oyster Ring and How the Ring May Thrive.

PREVENTION OF DISEASE AND CEUELTY.

ALBANY, March 14, 1873. The charter is still lagging. Every section is discussed, it seems, in committee with an earnestness that might attach to a discussion of the bill sempleted, but which is certainly unnecessary over mere verbal amendments. Senator Benedict is the most uncontrollable member in this respect that an impatient taskmaster ever undertook to direct. He will in his slow but always pretty sound way dissect an amendment to substitute one part of a speech for another with the zeal that he would appropriately display in a Senatorial discussion upon a bill of great importance. The committee has got along to the ninetieth section only, although it has had to confine itself chiefly to verbal amendments, and its slow progress is in great part due to Senator Benedict's immovable determination to

CONDUCT THINGS SLOWLY, calmly and deliberately. This is old fogyish; but another point upon which Benedict is even more old fogyish is his determination to restore the Board of Assistant Aldermen. He is known to be determined upon this point and equally so upon giving the appointing power to the Mayor. The proposition suggested by Benedict, Palmer and Perry is still under discussion in the committee; but the Custom House men cannot consent to it. It is now understood to include

A RESTORATION OF THE ASSISTANT ALDERMEN. as well as the securing of a permanent situation for Van Nort. Tiemann opposes both the proposed substitute and the original section on democratic principles. He does not want Van Nort or any other man legislated in against the Mayor's wishes; but he is not strongly opposed to the Assistant Aldermen question. Davenport and his superiors are clamoring for progress, but clamoring in vain. The poor little would-be Dictator has found his power most unpleasantly curtailed, and is now driven to urging and entreaties where before he issued tiny ukases and distributed his decrees calmly through the page boys. Perry, Tiemann, Weismann, Adams and Woodin all make a flying trip to New York this afternoon, and will doubt less discuss the pending proposition at Tem Murphy's dinner table or over Bliss' cold Turkey and Mumm at Delmonico's. On Monday afternoon the committee has another formal meeting at Woodin's

Minim at Delmonico's. On Monday afternoon the committee has another formal faceting at Woodin's cooms.

IS THIS A STEAL?

The bill introduced by Mr. Campbell, over a month ago, was dragged into Committee of the Whole to-day and raised quite a breeze. Mr. Norton opposed it stoutly, on the ground that the city should be compensated for the use of its wharves, under all circumstances. He also intimated that there was a big "steal" in the bill. It must be said that the bill is a peculiar one. It gives to certain parties, who are not even mentioned in it, "that part of the waters adjacent to the wharves lying between pier 56 East River and pier 58 East River, for the exclusive use of vessels engaged in the transportation, landing and reception of cysters." It is true that the bill makes the privilege subject to all regulations and bylaws () established or to be established in relation to what age; but a line in the bill deprives the harbor master from stationing vessels at these wharves. Again it provides that nothing in the bill shall be ronstrued to prevent or inder any other vessels from occupying or using any berth within the reservation "not occupied or required" feature reality gives the oyster men exclusive and permanent use of these wharves, or rather the waters adjacent to them. It is claimed by the triends of the bill that the object of striking out the clause in the original bill, which placed the stationing of the vessels under the same regulations of the bill that the object of striking out the clause in the original bill, which placed the stationing of the vessels under the same regulations of the bill that the object of striking out the clause in the original bill, which placed the stationing of the vessels under the same regulations of the barber master as other vessels was to circumvent the blackmailing of any unscriptions harbor master even to ask for money or its equivalent in order to induce him to periorm his duity, and the oystermen have a corrective always at their command. They claim, I belie thousand dollars a year. If a bill of this character is passed, why not allow the fruit dealers and others similar exclusive privileges, at the greater that their heats must be located promptly in order that the fruit may not spoil? It is altegether too much of a great thing. Mr. Eoyle and the oysterites of the city will not be benefited by it to the extent of a dime, and therefore it should not be passed.

of a dime, and therefere it should not be passed.

GO IT

By the way, Mr. Pierson has got into a scrape over this bill. He some time ago dropped the remark that if the backers of the bill wanted it to pass they should send up a barrel of opsters. The backers took him at his word, and the other day a barrel of oysters arrived at his house. Pierson says he don't want 'em, as they are the property of the House, so he intends to have the barrel put up on the Clerk's desk when the year and mays are being taken on the bill. If he does he had better not go near O'Connell for a taily-list; for doesn't he know that lobbyists only get taily-lists nowadays?

EXPRESS YOUR FEELING.

One of the coolest propositions to corner the members of the Assembly in dealing with the Eric investigation report which they will have to pass upon, and other matters concerning the road, is the following letter, which several of the members have received during the past few days. The "strong" letter suggestion evidently means business that Mr. Livingston knows all about, even if the answers he may receive (1) are not put in a lawyer's directory at \$10 a head.

allowing aliens not residents to purchase, hold and convey real estate, was discussed very ably and ordered to a third reading. James Wood made a very exhaustive speech in layor of it, showing the present inaccuraces of the law on the subject, and instancing one result of it where one Murray, the son of an American weman but of an English lattace, is compelled to sell the immense property descending to him from his mother or have it escheated to the State, because of his being a non-resident. An amenament to insert the word "resident" was rejected. The various committees reported to-day the East River Bridge bill, the Assembly bill in relation to common schools in New York, and the Riverside Police bill. None of these were amended in any material points.

Newspaper Suits Against the city.

Mr. James Wood introduced a bill relative to certain suits in New York city, which previded that newspapers gaining saits against the city shall not be debarred payment because of the lack of not be departed payment because of the lack of any appropriation for such purpose. The latter end of the session was taken up in discussing an appropriation for the improvement of a little river far up in the Adirondacks, and the Senate ad-journed until Monday evening.

amendments heretofore adopted by the Commission, and it was recommitted, with instructions to strike out the provision providing for a change of the Senatorial districts, which, in effect, leaves those districts as fixed in the existing article until the constitution is changed.

A form of ballot was adopted for submission to the people of the several amendments to the constitution.

The question of inserting a provision authorizing

the Legislature to prohibit the sale of intoxicating liquors was discussed.

### DR. HUSTON EXPELLED.

The Conference Committee Declare the Pastor Gullty of Immorality and Gross Licentiousness, and Expel Him.

BALTIMORE, March 14, 1873. The case of Rev. Dr. L. D. Huston, charged with gross immorality and licentiousness, which has excited such deep interest in this community and the entire Methodist Episcopal Church South for the past year or more, was concluded this morning in the session of the Baltimore Annual Conference of the Methdist Episcopal Church South.

Shortly after the meeting of the Conference this morning, Bishop Doggett, presiding, inquired if the committee in the case of Rev. Dr. Huston were

ready to report. The Chairman, Rev. Dr. Register, responded that they were, and handed the following to the Secre-

tary, which was then read :-The committee to whom the case of the Rev. L. D. Huston, D. D., was referred, beg leave to report

The committee to whom the case of the Rev. L. D. Huston, D. D., was referred, beg leave to report that we have come to the conclusion that the charge of immorality is unanimously sustained and said L. D. Huston has been expelled from the Methodist Episcopal Church South.

Bishop Degectt asked II any representative of Dr. Huston appealed from the decision.

Dr. Register said that Dr. Roszell, as counsel for Dr. Huston, had intimated a purpose to appeal to the next General Conference of the Methodist Episcopal Church South.

All the papers in the case were handed over to the Secretary of the Conference.

Bishop Deggett then remarked—"According to the report of the committee, L. D. Huston is expelled from the Methodist Charch South, upon the charges as reported, and that is an end to this solemn question."

It will be remembered that the charges against Dr. Huston were for seduction of a Sunday school scholar attending Trinity church, of which he was paster at the time, and grossly immoral conduct with other young girls. A committee, appointed by the Conference a year since to investigate the charges, found that they were sustained, and on the 6th of this month, on the meeting of the present Conference, submitted their report, which was referred as Required by discipline to a constitutional conference, the committee consisting of Rev. Dr. Basey, Rev. J. L. Clark and Rev. A. P. Bond. On the following day the latter committee submitted their report to the Conference to the effect that after careful examination of all the testimony, they deem it necessary to present the charge of immorably with specifications against Rev. L. D. Huston, and recommended the appointment of a committee, the Rev. L. B. Huston, and recommended the appointment of a committee, D. R. Rev. L. R. Jones, Rev. P. B. Smith, Rev. F. C. Tebbs, Rev. J. L. Shipley, Rev. D. Ball, Rev. G. G. Brooks, Rev. J. L. Shipley, Rev. D. Ball, Rev. F. C. Tebbs, Rev. J. L. Shipley, Rev. D. Ball, Rev. G. G. Brooks, Rev. J. L. Shipley, Rev. D. Ball, Rev. G. G. The General Conference of the Church, to which appeal will probably be taken, does not meet until May, 1874. Dr. Huston has not been present dur-ing the session of the Conference nor before the committee. His parchment as deacon in the Church was bunded in to the Conference ons

Bloody Tactics of the Reed Republicans at Lake City.

Organized Mobs Firing Into Private Houses.

THE MILITARY CALLED UPON.

The United States Marshal Acts Instead of the State Authorities.

Soldiers Hold the City While the Marshal Arrests the Rebels.

SAVANNAH, Ga., March 14, 1873. The disturbance reported from Lake City, Fla., was created by disaffected aspirants for official positions. The office-holders under the Reed wing of the republican party, tailing to secure reappointment under the Hart government, determined to Ku Klux the present appointees. The revolutionary party is supposed to be led by a man named Bush, a member of the Legislature, and the present Tax Collector.

They attacked the residences of Helt, Probate Judge; Waldron, Clerk of the Court; Moore, Postmaster, and Keene, Assessor, firing volleys of not less than twenty or thirty shots each time. The occupants of the houses narrowly escaped with their lives. Soon afterwards the United States Marshal arrived with a squad of militia from Jacksonville, and they arrested Bush and two brethers named Seph, and three others, all of whom were conveyed to Jacksonville this morning.

There is a squad of militia stationed in Lake City and a search for others of the revolutionists is being actively prosecuted.

THE REVOLUTIONISTS. A member of the republican party declared, as his opinion, that the whole affair is an organized plet of the Reed faction against Holt and his supporters, and further trouble is anticipated unless the national government acts promptly. Placards are posted in various parts of the county warning certain people-both democrats and republicansto leave. Bush, the ringleader of the "out" faction, is said to have been the Grand Cyclons of the Ku Klux at Ellisville since the war, though ne is now a preminent republican, and is said to be a defaulter in the sum of \$47,000 as tax collector. Ex-Governor Day, one of the parties threatened, was President of the Regulators prior to the war. All the persons threatened have fled.

THE UNITED STATES MARSHAL AT WORK. Further particulars from the seat of war state that it now transpires that the brothers Seph were summoned as witnesses to the conspiracy inaugurated by Bush. A noterious character named Roberts and four others, charged as participants in the outrage, have been escorted to Jacksonville for examination. The United States Marshal returned to Lake City this morning with a large assortment of warrants, and his action indicates an intention to arrest a large number of citizens in order to obtain evidence bearing upon the case. This course causes considerable anxiety, and people carefully evade all conversation upon the subject, fearing an expression of opinion will cause their arrest.

WHY THE GOVERNMENT ARE THE PROSECUTORS. It is supposed that the course of the United States Marshal in taking the direction of the proceedings from the hands of the late authorities is based upon the conspiracy and assault upon the Postmaster. No resistance is being made by citizens to the issuance of the warrants, all appearing promptly to the summons and quietly submitting to the direction of the Marshal.

MORE MILITARY. A company of colored militia has been organized by the State authorities. They are armed with breech-leaders and drill daily. These troops are held in readiness for any future demonstration which may be attempted. It is generally believed that the affair will soon come to a focus, and the citizens are fearful that it will not be a peaceful
